

Let Customers Pay the Way They Want by Certifying for Contactless and Mobile Payments

It's estimated that more than **HALF** of all POS transactions will be contactless by 2022¹

Today, more and more consumers around the world are making in-store purchases with contactless-enabled cards, digital wallets and wearables. These consumers expect to pay the way they want—and will seek out merchants that allow them to use their preferred payment method. Certifying point of sale (POS) systems with Contactless D-PAS—the Discover® EMV®-compliant payment solution for contactless payments—may go a long way to satisfying shoppers and capturing sales.

Accepting Contactless Payments Is Smart Business

By 2022, it's predicted that:

6.5 billion

contactless cards will be used for retail purchases worldwide¹

1.2+ billion

mobile handsets will be used for contactless retail purchases worldwide¹

52 million

smartwatches and multifunctional wearables will be used for contactless retail purchases worldwide¹

\$3.6 trillion

worth of mobile and contactless purchases will be transacted worldwide¹
